Ms. Marlene H. Dortch
Federal Communications Commission
Office of the Secretary
445 12th Street, S.W.
Washington, D.C. 20554

RE: *Numbering Policies for Modern Communications*, WC Docket No. 13-97, *IP-Enabled Services*, WC Docket No. 04-36, *Telephone Number Requirements for IP-Enabled Services Providers*, WC Docket No. 07-243, *Telephone Number Portability*, CC Docket No. 95-116, *Developing a Unified Intercarrier Compensation Regime*, CC Docket No. 01-92, *Connect America Fund*, WC Docket No. 10-90, *Numbering Resource Optimization*, CC Docket No. 99-200

Dear Ms. Dortch:

Pursuant to paragraph 103 of the Notice of Proposed Rulemaking, Order, and Notice of Inquiry issued in the above-captioned proceedings on April 18, 2013 (“Order”), Millicorp hereby submits its initial report on its numbering trail.

Millicorp applied for an OCN under the “IPES” category on June 18, 2012 and was granted a newly assigned company code of 158H on May 28, 2013.

Millicorp filed its initial request on August 7, 2013 with the North American Numbering Plan Administrator (NANPA) for a 10,000 block to establish an LRN in LATA 912 (Savannah, GA) and this request was approved on August 14, 2013. Millicorp filed a request on September 4, 2013 with NANPA for a 10,000 block to establish an LRN in LATAs 239 (Fort Myers, FL) and 561 (Boca Raton, FL). Millicorp’s request for Fort Myers was approved on September 12, 2013 and the request for Boca Raton was approved on September 13, 2013.

Millicorp was provided with the following LERG effective dates:

- Savannah effective date: October 4, 2013
- Boca Raton effective date: November 4, 2013
- Fort Myers effective date: November 10, 2013

Millicorp has nothing to report for the specific reporting categories under the Numbering Order in this report, which categories include: (i) the total of new numbers placed in service by the provider; (ii) the total number of port-in requests (including current customers) and the percentage of successful ports-in; (iii) the number of requests to port out a number the provider holds directly and the percentage of successful ports-out; (iv) the total number of routing failures, and causes of said failures; and (v) a description of any billing or compensation dispute. None of these reporting categories are yet applicable to Millicorp, and each will be

addressed in Millicorp's subsequent reports.

Millicorp is still in Phase one of its VoIP Numbering Trial Proposal, which includes acquiring an OCN, AOCN, setting up trunks with Inteliquent, acquiring CO codes, NPAC/NANPA/Pooling Administration activation, populating BIRRDS and LERG and filing the appropriate Federal, State, and Local reports.

Please do not hesitate to contact me with any questions regarding this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'Duane Dyar', written in a cursive style.
